-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM
 THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. Applicant's amendment received on April 28, 2005 is acknowledged.
2. Applicant has amended claims 26, 27, 30, 33, 35 and 41 and has introduced new claim 44. Claims 26-44 are pending in the application.
3. Applicant's amendment and introduction of new claim has necessitated new grounds of rejection as detailed below.

Election/Restrictions

4. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 26-43 are drawn to a system for scanning tissue, classified in class 356, subclass 369.
 - II. Claim 44 is drawn to an image enhancing agent, classified in class 424, subclass 64.

The inventions are distinct, each from the other because of the following reasons:

5. Inventions II and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as a cleansing agent. See MPEP § 806.05(d).
6. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.
7. If Group I is elected, then further restriction is required.

Art Unit: 2877

8. Claims 26-43 are directed to a plurality of disclosed patentably distinct species comprising a system for scanning tissue. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

- a) Claims 33-36 are patentably distinct species comprising a system for scanning tissue with image enhancing agents.
- b) Claims 27-29 and 37-43 are patentably distinct species comprising a system for scanning tissue with brightness enhancing agents.
- c) Claims 26 and 30-32 are directed to a plurality of disclosed patentably distinct species comprising a system for scanning tissue without brightness enhancing or image enhancing agents.

9. Currently claims 26 and 30-32 are generic and will be examined with the elected species a) or b) above.

10. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

11. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

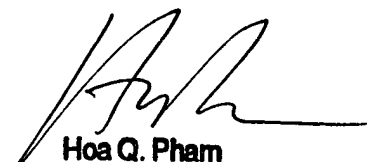

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Roy M. Punnoose** whose telephone number is **571-272-2427**. The examiner can normally be reached on 9:00 AM - 5:30 PM.
